

HIGHLIGHTS

Collaborative Project to Develop Supplies Made with Recycled Materials

CAL actively cooperates with companies such as TAGather Goods and SINGTEX Industrial and considers the characteristics of materials, passengers' behavior, and disposal process and design multiple in-flight catering supplies and products such as eco-friendly pleated bags, travel bags, and travel memory aluminum cases. The eco-friendly travel bags produced with recycled life vests received wide acclaim from passengers. They contain select products from quality manufacturers such as GIN-GER, YUAN, FineHerbs, which use local ingredients to develop the GIN-GER Alcohol Hand Cleanser, YUAN Wild Mugwort Body Wash, and FineHerbs Natural Hand-Made Botanical Soap. In 2022, Mandarin Airlines used retired life vests from retired ERJ aircrafts to produce eco-friendly and fashionable products such as the drawstring bags and three-fold bags, which became wildly popular with fans of Mandarin Airlines and aviation enthusiasts and increased the products' sustainable value.

ESG Data and Appendix

The decommissioned in-flight aluminum meal service boxes and carts were transformed into containers with intricate accessories based on environmental protection and recycling. They were exceedingly popular and became the best way to support the circular economy.

We also produce products made with retired life vests of aircrafts to support

We use recycled coffee ground service item such as pillow cases, blankets, tablecloths, and napkins to encourage passengers to promote eco-sustainability.

A long bag and seashell bag. The patterns on the life vests are carefully embedded as decorations on the seashell bag.

Drawstring bags and three-fold bags. The drawstring bags retain the light bulb on the bag on the back, on the shoulder, or in hand.

The strap for inflating the vests has also become a accessory of the bag.
