

2-2-3 Enhancing Sustainability Value through Supply Chain Engagement (Building Programs)

Sustainable actions by supply chain/value chain partners are the key foundation for CAL's commitment to environmental sustainability and the implementation of environmental protection. With the active cooperation and hard work of partners, of environmental policies. Since 2018, CAL has invited 11 suppliers and value chain partners with close partnerships for setting up the Environmental Seed Development Plan. We use surveys, workshops, in-person / online courses and seminars and industrial trends and invites suppliers to jointly develop environmentally friendly and opportunities and gradually build and continuously sustain comprehensive environmental management mechanisms. We also invited partners of the Group to

Purpose	Engagement Model	2022 Achievements / Results
Monitor Environmental Risks and Opportunities	Distribute surveys, inventory energy and resource consumption, potential environmental risks and opportunities in operations	Assisted 11 partners of the Group with 100% completion of carbon inventory and the Scope 1 and Scope 2 emissions totaled 208,914 tons of CO ₂ e
Improve Environmental Management Mechanisms	Organize themed workshops/courses, communication meetings, and seminars and invite partners of the Group 1. Incorporate environmental protection and energy conservation into new investment and procurement of equipment 2. Set up dedicated units for evaluating compliance for critical environmental impact with direct consequences 3. Set environmental performance targets and promote environmental protection and energy conservation measures	Assisted 11 partners of the Group in setting 21 energy and resource management targets with 100% attainment for 14 targets. Implemented environmental protection and energy conservation measures to reduce electricity consumption by 45,000 kWh and reduce diesel consumption by 3,000 liters
Expand Sustainability Influence	CAL encourages suppliers to set up environmental sustainability pages to disclose their environmental policies, targets, and performance Encourage suppliers to support environmental protection initiatives	Assisted 7 partners of the Group in disclosing environmental information on the official website / web page and support the Earth Hour initiative
Value-added Products / Services	Work with suppliers to add sustainable and environmental protection products to specific products or services, creating new environmentally sustainable products and services	Development of environmentally friendly catering stores (refer to the chapter on environmental protection) with rPET / coffee ground fabrics Broadcast 12 environmental sustainability videos on board Promotion of the voluntary Eco Travel Carbon Offsetting Program to passengers / shippers and Mandarin Airlines / Tigerair Taiwan
